

The Swan was an amazing and joyful experience. It was a fun and educational trip.

The crew were very helpful, friendly and keen to answer questions.

I enjoyed learning and carrying out the procedures required on and below deck when out at sea. The tea and biscuits were very appreciated!

I will consider taking a trip on the Swan in the future!

The Swan Feedback

I had a good time on the Swan because it was very interactive and there was many things to do. It was a nice day aswell so it made the experience more enjoyable.

I had never been on a boat apart from the northlink, and some of the ferries to the isles, so that was one of the reasons I decided to go. Another reason was that I might not have gotten another chance to do something like this.

The crew was very welcoming and kind, they were good at explaining everything we needed to do and all the safety rules were clear. The Swan is a nice boat and I would recommend it to others.

We started off by sailing out the Voe and then we anchored for lunch, we sailed around and headed back to the school intime for the end of the day.

Da Swan was a good experience to go
on with the school and my Pass if
made me gain more knowledge on
how sailing works and working
with the sails and steering the vessel
was great the crew we were of
with were very helpful and made me
feel confident.

thank you Swan for my trip

For Eiland

Swan Review

I really enjoyed my day out on the Swan it really helped me realise what all goes on when the boat goes out to sail. I found raising and lowering the sails very fun because it took a lot of pulling to get them all the way up. When we stopped for lunch at papa little we put the anchor down which I found interesting. Every hour we were at sea we would do a log which will include the speed of the boat, wind speed, weather and time of day.

Liam Garrick.

The reason I went on the Swan was I thought it would be a very good experience, And it was the right choice cause I really enjoyed being on the Swan and I gained some new skills like learning how to use the sail and got to steer the boat. And another good thing was that we weren't limited on time because we were out for the whole day so we did everything that they wanted us to do. Then

we weren't working the whole day though cause we stopped at papa wittle and had a lunch and then we got to wander around the boat then had a quiz so we had to wander around about the boat and right information about but we weren't by ourselves cause we had one person in our team so it wasn't as hard.

But thanks you very much for taking on the Swan

Ali

I went on the Swan because I thought it would be a good day. I enjoyed it because it was hands on and layed back. It learned me a lot about sailing and the history of the Swan. I think that ~~the~~ the Swan should come back to aith so that we can go off again, and so that the future S1-45 can go off as well.

Logan

My Experience on the Swan was very pleasant, the crew gave us a warm welcome. They began by showing us around the vessel and telling us the history of the Swan. We set off out the voe I was steering as the others lowered the main sail. We were wind powered now. We all got shots of helping with the ropes and the sails, it was amazing to see how all ropes and sails worked. We anchored off at Papa Little where we tucked into our packed lunches and had a lovely warm cup of tea accompanied by biscuits of course. The Swan is a lovely vessel and the history of the boat makes it better.

Swan

I enjoyed going on the swan, it was very fun and interesting to learn about the history of the boat and how they would sail it. I really enjoyed raising and lowering the sails. The crew was very welcoming and kind.

Ivor

Swan Review

The Swan was a really good experience because it was just what I have wanted to do. When I heard that they were coming to Aith I thought that it would be the perfect opportunity to get out at sea. I signed up a few months ago for the taster days although I was at them I never got to go offshore. The biscuits there were also very good!!!

Josh

Mattie

The Swan was a very good hands on experience I learned how the sails worked and got more confident going out in sea. I enjoyed steering the boat and working together with my friends to get the sails up and going.

The crew were very helpful and friendly, and made me feel confident going out.

Swan Feedback

My experience on the swan was very enjoyable because I enjoyed getting to meet new people, doing various tasks onboard and just the whole experience overall.

I gained a lot of confidence in teambuilding, especially when we were working with the sails. It was also a really good chance to try something that I would never get to if I didn't get the option.

Connell

note

My experience on the Swan was very fun, I loved working with the Scouts and driving the boat. It has made me consider a career on the sea. I would go on the Swan again and would recommend it to anyone wanting to go on it.

The Swan ~ feedback

A few weeks ago I got the opportunity through school to have a day out on the Swan, My mams been on the Swan before and is always saying how much she loved it, So I thought I'd give it a go. And I'm glad I did, I had a lovely day out, working with the sails and learning how the Swan works and what she was first used for. We had a brilliant day for it and everyone onboard was so welcoming and friendly, I would definitely recommend going on the Swan if you ever get the chance, it was an amazing experience and I would love to do it again! Thankyou to the Swan crew!
